## Autism Spectrum Disorder (ASD) Resources

**What is Autism?** Autism, or autism spectrum disorder (ASD), refers to a broad range of conditions characterized by challenges with social skills, repetitive behaviors, speech and nonverbal communication. According to the Centers for Disease Control, [autism affects an estimated 1 in 54 children](#) in the United States today.

We know that there is not one autism but many subtypes, most influenced by a combination of genetic and environmental factors. Because autism is a spectrum disorder, each person with autism has a distinct set of strengths and challenges. The ways in which people with autism learn, think and problem-solve can range from highly skilled to severely challenged. Some people with ASD may require significant support in their daily lives, while others may need less support and, in some cases, live entirely independently.

Several factors may influence the development of autism, and it is often accompanied by sensory sensitivities and medical issues such as gastrointestinal (GI) disorders, seizures or sleep disorders, as well as mental health challenges such as anxiety, depression and attention issues.

[Signs of autism](#) usually appear by age 2 or 3. Some associated development delays can appear even earlier, and often, it can be diagnosed as early as 18 months. Research shows that early intervention leads to positive outcomes later in life for people with autism.

*\* In 2013, the American Psychiatric Association merged four distinct autism diagnoses into one umbrella [diagnosis of autism spectrum disorder \(ASD\)](#). They included [autistic disorder](#), [childhood disintegrative disorder](#), [pervasive developmental disorder-not otherwise specified \(PDD-NOS\)](#) and [Asperger syndrome](#).*

## LEARNING ABOUT AUTISM

**Autism Speaks** [www.autismspeaks.org](http://www.autismspeaks.org) .....(888)288-4762 (888)AUTISM2  
The Autism Response Team (ART) is an information line for the autism community. Our team members are

specially trained to provide personalized information and resources to people with autism and their families. Part of Autism Speaks.

- **100 Day Kit for Young Children** - Knowledge is power, particularly in the days after an autism diagnosis. The Autism Speaks 100 Day Kit helps families of children ages four and under make the best possible use of the 100 days following the diagnosis. This kit will help you learn more about autism and how to access the services that your child needs. It contains information and advice collected from trusted experts on autism and parents like you.
- The 100 Day Kit is divided into the following sections: About Autism, Diagnosis, Causes and Symptoms, You, Your Family and Autism, Getting Your Child Services, How is Autism Treated? Making It Happen, A Week by Week Plan for the Next 100 Days, Useful Forms, Glossary and Resources
- Families whose children have been diagnosed in the last 6 months may request a complimentary hard copy of the 100 Day Kit by calling 888-AUTISM2 (888-288-4762) and speaking with a member of our Autism Response Team. \*Note: We are unable to ship kits internationally.
- Through a generous partnership with FedEx, after calling an Autism Response Team coordinator and providing them with your information, you can pick up a complimentary printed copy of the 100 Day Kit at a FedEx Office location near you! Purchase A 100 Day Kit <https://www.autismspeaks.org/tool-kit/100-day-kit-young-children>

Autism Speaks has autism info available in the following languages: Arabic (العربية), (Bangla (বাংলা), Bosnian (Bosanski), Cambodian (្ក្ក្ក្ក្ក្ក), Chinese (中国的), French (Français), Greek (ελληνικά), Haitian Creole (Kreyòl Ayisyen), Korean (한국어), Laotian (ລາວ), Portuguese (Portuguesa), Romanian (Română), Russian (русский), Serbian (српски), Somali (Af-Soomaali), Spanish (Español), and Vietnamese (Tiếng Việt)

## **IFSP Individualized Family Service Plan- Ages Birth to 3 years old**

**No Referrals Needed!** The IFSP is a written treatment plan for Early Intervention (EI). It details your child's current levels of functioning, specific needs and goals for treatment (referred to as outcomes). The first step in writing the IFSP will be for the members of your child's team to conduct various types of assessments to identify your child's individual strengths and needs. The IFSP will include information about your child's current level of development in the following areas: Physical development, Cognitive development, Communication development, Social & emotional development, Adaptive development, Fine and gross motor skills, Vision, Hearing, etc. The IFSP is developed with input from the child's entire family, and it includes features that are designed to support the entire family. Whidbey Island: Toddler Learning Center **(360)679-1039**

## **IEP Individualized Education Program- Ages 3 to 21 years old. Special Education**

Approximately 143,000 eligible students in Washington State receive special education and related services.

The Office of Superintendent of Public Instruction (OSPI) fulfills the requirements of the federal Individuals with Disabilities Education Act (IDEA), which ensures all children with disabilities have access to a free appropriate public education. <https://www.k12.wa.us/student-success/special-education>
